Read:

1 From the Collector of South Kanara,D.Dis.~~1c14~~1904/42 dated 20-4-1942.

Reference:

In his reference read above, the Collector of South Kanara brings to the notice of the Board the large amount of maintenance work to be attended to in his district and suggests the employment of one additional Taluk Surveyor for each of the taluks where arrears are heavy. According to the New Scheme of maintenance work, one taluk surveyor is allotted to each taluk. But from the figures furnished by the Collector for current maintenance work based on the averages of 10 years, it is seen that the amount of work is more than what one surveyor can cope up with. The Board finds that in South Kanara district, the work of the Revenue Inspectors is light as there is no real crop inspection on the lines of the eastern districts. Communications in the ~~the~~ district are not easy and as such, the size of the firkas cannot be doubled and

and the number of Revenue Inspectors reduced. The Board is of opinion that the Revenue Inspectors may help the Taluk Surveyors by attending to some items of maintenance work instead of allowing a special staff to do this work for them. In the above circumstances the Board requests that the Government may be pleased to permit the Revenue Inspectors of South Kanara district to attend also to maintenance work in their respective firkas.

Letter from the Collector of South Kanara, No.D.Dis.1904/42, dated 20th April, 1942.

Sub: Revenue Records and Registration - Maintenance work - Transfer to the Survey department - Working of the new scheme - Reported.

B.P.Mis.No.1292-D. 16-5-1941.

The new scheme transferring maintenance work to the Survey Department, sanctioned in the Board's reference No.N.1770/38-12 dated 4-9-40 is being worked in this district from December 1940. The results obtained during the period have shown that though the quality of the work turned out has decidedly improved, the Surveyors have not been able to cope with the full amount of work arising in this District. This was largely due to the very large amount of subdivision work to be attended to by them. Their vast jurisdiction and the difficulty in traversing long distances also made their work more difficult. Consequently the Taluk Surveyors have turned out the prescribed minimum outturn during the year, arrears under maintenance have accumulated. It will be evident from the enclosed statement containing the average figures under maintenance work for the last 10 years that there is work for at least two surveyors in all the Taluks except Coondapur Taluk. The statement conclusively shows that a single Taluk Surveyor cannot cope with the current maintenance work of a Taluk and that one additional Taluk Surveyor will be necessary for five taluks of this district. This difficulty was suggested in my report dated 16-8-41. As the full strength of the mobile staff has not worked in this District they have not been able to give material to help to the taluk Surveyors. I, therefore propose that one additional Taluk Surveyor may be posted to 5 out of the 6 Taluks of this district as supported by the statement enclosed. It is not necessary to fix permanently the jurisdiction of the two Taluk Surveyors within the Taluk so that adjustments may be made from time to time to the work distributed equally between the men.

** were not able to visit all the villages of their respective taluks the result that stone inspection and stone maintenance were very poor in the current year. Though the Taluk Surveyors

2. As it is likely to take some time before Government sanction is obtained for the appointment of additional Taluk Surveyors, the Officer-in-charge, Survey and Land Records, Coimbatore, can be requested to post one mobile Surveyor for each of the five taluks and thus immediately bring into effect the proposal to have an additional taluk Surveyor. The diaries of these surveyors can be sent to the Officer-in-charge through the Tahsildars. Unless this is given effect to without further delay, I am afraid maintenance work will not be satisfactory in this District and heavy arrears are likely to accumulate. Further suggestions relating to the working of the new scheme can be made only after a fair trial is given to the proposal to have additional Taluk Surveyors.

Repre from the Board of Rev. No. N. 1518/42, dated 12-9-1942.

G.O. Ms ...2373..... dated 19—10—42

~~The Govt do not consider it advisable to hold maintenance work in the Taluks in the S. Kanara dist as suggested by the Board in their representation~~ The Govt Sanction the employment for a period of one year from the date of appointment of five additional Taluk Surveyors on Rs. 28/- each a month and five additional Chainmen on Rs 12/- each a month to attend to the maintenance work in the five taluks of Udipi, Karkal, Puttur Kasargod and Mangalore of the South Kanara district.

2 F.T.A. should be paid to the addl. Taluk Surveyors and Chainmen on the Scales prevailing in the South Kanara district.

3. The expenditure should be debited to "7-C - Land Revenue - Land Records - C.A. Maintenance of Ryotwari Surveys - Pay of establishments and Contingencies - Authorised"

[C.No. 3475 E/42]

Revenue Records and Regn. – (South Kanara) – Maintenance work – Transfer to the Survey Dept – Assistance by Revenue Inspectors – Proposals.

C.F. Reference from the Board of Rev. No.S. 1518/42, dated 9-8-42.

To D.S.

Please see the Board's Reference in the C.F. In addition to a Taluk Surveyor for each of the taluks in a district, there is a mobile survey staff of one Deputy Surveyor and six Field Surveyors in a district. But this mobile staff is unable to attend to the arrears of maintenance work and to attend to big or special items of survey. As such, this staff will not be of any assistance to the Taluk Surveyors in the ordinary current maintenance work. In its Reference in the C.F., the Board has suggested that the Revenue Inspectors also should be asked to attend to some items of the maintenance work in the South Kanara district (as their work in the dt is light). For orders whether the Board's request at 'A' on p.2 C.F. will be complied with.

Vide 'B' on p.1 C.F. & 'A' on p.2 C.F. of (X)

Vide para 2 marked 'B' on pp 2 & 3 of C.F. of (X)

'B' on p.2 C.F. of (X)

p1 F

2 The Board has not specified the particular items of work to be attended to by the Taluk Surveyors and those to be attended to by the R.Is. in the South Kanara district. Vide is presumed that the matter will be left to the discretion in this connection the duties of the R.Is. and the District of the Collr who will allot to the R.Is items of work which Deputy Surveyor before the New Maintenance Scheme was introduced which are mentioned at 'A' on p.2 C.F. of (X) 1773 Revenue, dated 3-7-1940. For orders whether it will be considered necessary to ask the Board for details on this point.

3 The file may be sent to Finance for remarks. [The Board by 15-8-42 reports that although the work of the R.Is in the dt is light, it is not possible to

2

the number of R.Ps)

15/8/42 If the Collr & the Bd think this will work we need not object. We may however express the presumption that the mobile staff will be employed to do arrears, & that the arrangement proposed is only for current maintenance work. We may also say that the specific duties should be clearly defined eg. by requiring the R.P. to renew or repair stones, other than theodolite stones in private villages.

22-8-

[Memo. No. 3475-E 142-1, dated 24-8-42] 2 C.i.

[Reply from the Board of Rev. No. N 1578-142, dated (24-8-42)] p 3 CF

To D.S.

Please see the notes from p. 1 ante. The Board has submitted (p. 3 C.F.) a copy of the letter of the Collector of South Kanara called for in the Memo. at p. 2 CF.

– Vide pp 5-6 C.F. For orders.

25-8-42 What the Collr asks for is quite additional

Taluk Surveyors. The Bd however suggests that the Revenue Inspectors can help. Attention is invited to the statistics at pp 5-6 cf. In each taluk except Coondapoor there is enough work for two Taluk Surveyors ~~does not therefore that~~ ~~add I must be able to do as much work~~ ~~as the way of~~ & it would seem better to appoint an additional taluk surveyor in each of the five talukes for one year in the first instance. Rs 25-0-0 p.m.

Even though the normal work of an RI. in S. Kanara is light I do not think it is advisable to add any maintenance work to his duties during war time. I support the proposal at A which is fully justified by the statistics given

Rev. Deptt

Please see the Notes from p. 1 ante. A draft order is submitted for approval on p. 6 C.F. It is presumed that a Chairman also should be sanctioned for each of the addl. Taluk Surveyors, as was done in the cases of Tirunelveli and Malabar. Subject to orders, the draft order provides for this. Draft for approval.
